

OHV Event SRPs
Special Recreation Permits
DOI-BLM-UT-Y020-2016-0067EA

Monticello, Utah—The Bureau of Land Management (BLM) Utah Monticello Field Office (MtFO) is seeking public input for a proposal to issue or renew several Special Recreation Permits (SRPs) to provide guided commercial 4-wheel drive vehicle events on BLM designated motorized routes including Arch Canyon, Hotel Rock, Hole in the Rock, Wooden Shoe and Jacob's Chair routes.

Red Rock Four Wheelers and Jeep Jamboree USA are requesting that their permits be renewed for a term of five years. Rising Sun 4 Wheel Drive Club and The Family Motor Coach Association have requested new permits, which would be granted for one-year. Each group would be authorized to offer one event annually. Events would be staggered and would not be permitted to overlap. The clubs will employ Tread Lightly practices, such as carrying spill kits and proper disposal of waste and trash. They would also be prepared for contingencies by carrying satellite phones, extra food, water, and emergency supplies on every trip.

Full-sized four wheel drive jeeps and smaller off-highway vehicles would be authorized for use on designated motorized trails and routes and would use existing trailheads and staging areas associated with those routes.
